

# THE ICS BULLETIN

*Monthly Newsletter from ICS Wear Group*

## 2019, THE YEAR THAT WAS

by Christina Pendergast

ICS Wear Group welcomes you to review our first ever monthly newsletter. Each month, you will have an opportunity to learn about the latest in ICS Wear Group product innovations, awarded contracts with completion dates, and on-site service reports supplied by our sales/service team. We look forward to sharing these experiences with you and invite you to contact us at [info@icsweargroup.com](mailto:info@icsweargroup.com) with all of your engineering, pumping, and spare parts requirements.

### APPRECIATION

"ICS Wear Group has been selected to receive a certificate of appreciation for your support to the Canadian Armed Forces Reserves."

# FOUR DAY FLANGE

By Paul Pipke

Customer desperately requiring XU discharge clamp flanges (side-split) as previously supplied OEM cast flanges break when tightened. Requiring these in less than a week, ICS Wear Group generates drawings using Solid Works, machining program using GibbsCAM and working with Kyle to complete the project. ICS Mill Master flanges were manufactured in proprietary ICSPRAVIRS material and shipped within 4 days. Controlling on-site manufacturing is key to any successful delivery and project completion.

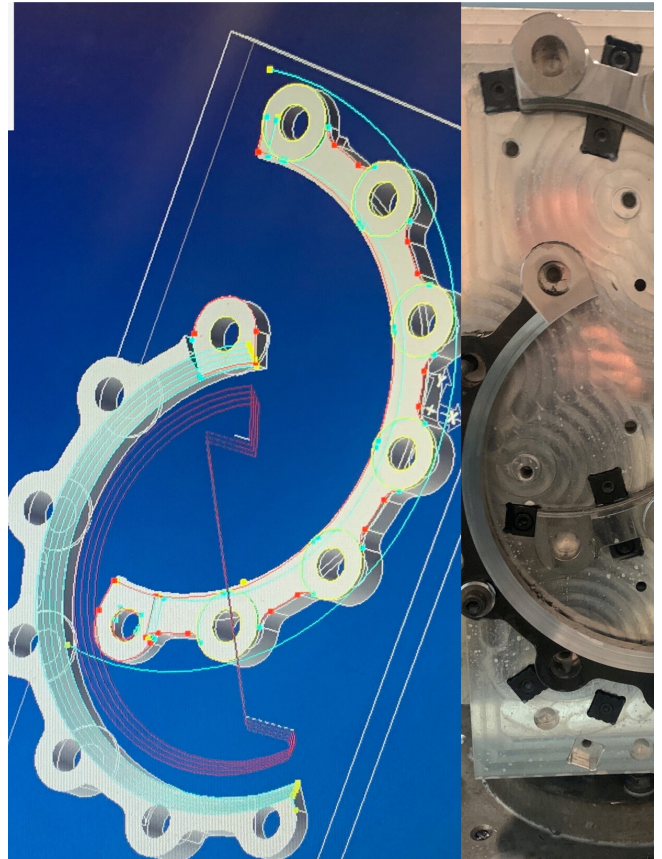

*ICS Products save you time and money. ICS is cost effective and has excellent delivery time.*

## TWO PIECE SPLIT RINGS

By Greyden Gamble

ICS Wear Group designed + custom fabricated an innovative Split 2-Piece Lantern Ring. ICS Mill Master Part Numbers are ICSMMLTR-2 and ICSMMLTRR-2, sizes shown for 16/14, 14/12, 12/10 and 10/8 depending on your seal arrangement size. Designing the 2 split rings allows for an easy change out of packing as you can access all individual packing rings without removing the seal from the frame plate.

## ICS GOES PINK

By Paul Pipke

What a special moment to be able to share in an amazing cause to help end Cancer. Cancer awareness can be supported in so many unique ways. At ICS we came up with an idea borrowed from professional sports. We painted an ICS Mill Master Wet End Kit PINK that will be installed into a 10×8 slurry pump. We will always support all of you who are fighting and/or surviving this terrible disease. “We love
